PRODUCT TECHNOLOGY

Vario Wide Fit System

HAIX® Composite
Toe Cap

HAIX® Climate System

Upper Material

Waterproof leather, hydrophobic, breathable (5,0 mg/cm²/h), 2.0 – 2.2 mm thick

Inner Lining

CROSSTECH® Laminat Technology; watertight and breathable. Abrasion-resistant lining with optimized climate comfort for all seasons, especially for flexible alternating inside and outside use. Superior penetration resistance against blood and body fluids (protection against blood borne bacteria and virus). Increased chemical protection.

Insert

Moisture wicking comfort insert with cushioning effect. Separate heel cup ensures optimized cushioning and foot guidance. „AIRFLOW“ channels. „Perfect-Fit“ marking for optimized boot size choice.

ESD

Electrostatically conductive footwear tested according to DIN EN 61340-4-3:2002.

Insole

Moisture-absorbent fleece insole.

HAIX® Protective sole

Flexible, lightweight metal sole insert preventing punctures (patent pending).

Sole

Lightweight rubber/PU sole in a sports style with sturdy road/rough terrain profile and enhanced toe-to-heel support; wear-resistant with excellent anti-slip properties - even in cold weather. The lightweight PU shock absorption wedge provides extra walking comfort and excellent thermal insulation. The flame-resistant outer sole is non-marking according to EN 15090:2012 and offers excellent resistance against heat and fuel-oil. Its bright yellow signal marks are visible even through thick smoke.

HAIX® Climate System

The HAIX Climate system uses the pumping movement, which permits air circulation with every step – warm air is released and fresh air comes in through the vent holes at the top of the boot.

HAIX® Composite toe cap

Anatomically shaped, ultra-light toe cap made from fibre-reinforced synthetic, conforming to the highest safety standards.

HAIX® Lacing System

The patented, externally positioned shoe band with inner-lying crossovers reduces danger of hooking.

HAIX® Arch Support System

Optimal ankle support and shock absorption in the arch provided by an anatomically formed last; good foot guidance and proper hold thanks to narrow heel and ankle shaft combined with added comfort through broad front foot area.

Sun Reflect

Reduces heating effect on the upper leather. Sunlight is reflected, keeping leather and feet cooler.

Others

Leather loop at the zipper, pull-on straps, TPU-toe cap, heel inlay and inlay construction around tongue.
